CHAIN FORT

At Port Arthur Captured by the Japs

GARRISON IN SORE STRAITS

Russians may have been Driven from
Itz Shan and Japs are very
Close to the Southern
Forts

JAPS CHASING RUSSIAN VESSELS.

Chefoo, Aug. 22nd.—The Russian garrison of Port Arthur is estimated at 23,000 men, covering an area of twelve miles. A junk arriving at Tengishow from Miao Tao island reports seeing yesterday five Japanese men-of-war pursuing two Russian warships of a type unknown. They were going in an easterly direction.

JAPS CAPTURE CHAIN FORT.

London, August 23rd.—The Evening News this afternoon published a despatch from Chefoo under date of August 22nd, announcing that the Japanese captured Chain fort, of the Port Arthur defences, yesterday after a tremendous attack.

JAPS CLOSE IN ON PORT ARTHUR.

Chefoo, Aug. 23.—According to advices brought here from Port Arthur by a junk, the Japanese were hotly pressing the Russian centre along the railway, and the Russian right in the vicinity of Golden Hill. These advices were brought by Chinese who departed from Tai Pang Tze, which is one mile from the city and the forts of the Russian right wing. The Chinese declare that the Japanese occupied Tai Pang Tze on August 20th. This report would indicate that Fort Arthur has all but fallen. The Japanese expert attached to the local consulate received the information with great reserve. The information is accepted, however, as a confirmation of previous reports that the Russians have been driven from Itz-shan and that the Japanese are very close to the southern forts and the eastern defences.

STRATHCONA MAN

HAS A CLOSE CALL

Wm. Graham Takes a Fit While Wading Through a Slough and is Rescued Just in Time

Wm. Graham of Strathcona, met with an accident yesterday afternoon which nearly proved fatal.

He and a companion were out on a duck-shooting trip and in the course of their rambles came to a small lake or large slough, about four miles south of Strathcona.

Mr. Graham started up one side of the slough and his companion took the other side. The water in the slough was about three feet deep. The ducks were plentiful, and Mr. Graham had just shot one and was wading

out through the water for it, when he suddenly took a fit and becoming unconscious, dropped into the water and was completely covered by it.

His companion, who was quite a long distance away, noticed him fall, and, knowing him to be subject to fits, immediately ran to his assistance. The alarm was also given from another corner of the lake. However, he was fully five minutes in the water before his companion and others arrived. They quickly took him to dry land and after working with him for upwards of two hours, were rewarded by signs of returning consciousness.

It was an exceedingly close call and not one that Mr. Graham would care to have repeated. His being in a fit and lying perfectly still doubtless accounts for his being able to be revived.

Mr. Graham is now almost completely recovered from the effects of yesterday's accident.

Berillon Bros. were demonstrating Majestic ranges last week. They had a Chinaman making bus suits and coffee. John found fault with the various brands of condensed milk tried until "St. Bernard" was pronounced the best. He expressed himself as entirely satisfied.

NEW STEAMER

J. A. McDougall has had built a small pleasure steamer for use on the river. The hull has just been completed and placed in the water to receive the machinery. It is 56 feet long on the bottom and over 60 feet over all, by 8 feet 4 inches beam. It will be a side wheeler and its engines will be of twelve horse power. It is flat bottomed and is not expected to draw more than eight inches. The hull is the work of J. H. Sollit. It is expected that the boat will be in operation in a week or two.

CONJURING CREEK

Today has been a splendid day for the Creek's celebration. There was a large turnout from Leduc and surrounding settlements. The baseball match, Creek vs. Leduc, was the opening event. The line-up was as follows:—

Corn. Creek.	Leduc.
Catcher.	
W. Sanders	G. Hardy
Pitcher.	
D. Buckell	W. Kirkpatrick
First Base.	
F. Middleton	H. Craig
Second Base.	
Chipman	W. Bush
Shortstop.	
J. Bush	Aicher
Third Base.	
Stout	Morris
Left Field.	
C. Howard	A. Bush
Center Field.	
E. Howard	F. Kirkpatrick
Right Field.	
Ferris	Fetherston

The game resulted in favor of the home team by a score of 13 to 9. It was a good game throughout. Mr. Slater of Leduc, acted as umpire.

The following are the results of the athletic events:—

Boys' race, under fourteen years, 75 yards—1st, M. Howard; 2nd, W. Sangster.

Hundred yard dash, amateur—1st, C. Howard; 2nd, D'Arcy Buckell.

Standing jump, open—1st, H. Craig; 2nd, C. Stout.

Putting 12 pound stone—1st, Gus. Hardy; 2nd, D'Arcy Buckell.

Girls' race, under 12 years—1st, E. Frederickson, 2nd, E. Moulson; 3rd, Iris Price.

Hundred yard dash, open—1st, C. Stout; 2nd, D'Arcy Buckell.

Quarter mile pony race—1st, J. Bush, 2nd, J. Pogue, Leduc.

Running hop, step and jump—1st, C. Stout; 2nd, D'Arcy Buckell.

Standing jump—1st, C. Stout; 2nd, H. Craig.

Men's race, 100 yards—1st, Slater, Leduc; 2nd, J. Ferris.

Girls' race—1st, Lily Howard; 2nd, Jessie Howard.

Men's race, over forty years—1st, R. J. McKay; 2nd, J. Middleton.

Backward jump—1st, C. Stout; 2nd, D. Buckell.

Supper was served after the sports and afterwards a dance was held. This closed a fine day's sport, and our boys deserve much credit in sparing no pains or expense in order that it would be a success.

Haying is almost over with and it has been a grand year. Almost every farmer has more hay up than they have had for several years.

Barley is being cut and some early varieties of oats. Cutting will be general about next week. Crops this year are good and prove what deep, black loam does in dry years.

Our real estate agent, F. Clifford, is doing quite a business in farm lands.

Road work is being pushed right ahead now, and in places the roads are in grand condition, only a little rough.

August 18th.

G. T. P. Terminals

The following is part of a speech the Hon. R. Prefontaine delivered in Vancouver last week.

"Then there is the question of aids to navigation. Shipping in the west

has been developing in a marvelous way, and if you will pause for a moment to understand what the Grand Trunk Pacific will do to the coast, you will agree that it is my duty to look at once, not only at immediate necessities, but to reach out ahead and consider what will be required with the enormous increase in coast and oriental trade that will necessarily come with the construction of the new railway. It is of the greatest importance in British Columbia as well as in the East, especially on the St. Lawrence, that great pains should be taken to assist navigation. Now, we in the east have never heard a word of complaint from the West while large expenditures have been going on on the St. Lawrence. So if you are generous enough in your liberal way to sanction those expenditures, then we in the East must certainly do as you have done, for the progress and advance of navigation on the Pacific coast. I came here from the east without prejudice. I would not be worthy to be a member of the government of Sir Wilfrid Laurier if I should look at things in a narrow manner. You have been supporters of the Laurier government and you don't regret it. When you sent Mr. Macpherson to us, we learned that he did not come to dictate to the government that there was only one policy, the policy of the west. He came and took his seat and made his way, and has become popular at Ottawa, for I am a member of the cabinet, and I know what he can do with me at the present moment. There is no wonder then that he has obtained fair and reasonable consideration for Vancouver at the hands of the government. I don't say that he was able to get what everybody desired, but as long as you get along well, as long as you have no serious grievance, I think all are satisfied; for they are getting just and reasonable treatment and men who get it are just and reasonable men.

"I have now to refer to the question of the Grand Trunk Pacific. This has been before the people for two years; it has entailed enormous work and worry and discussion. It is a settled question. I think you will admit that there would not have been so much work if it had not been for the stubbornness of some of the members of the other side of the House. But the people of this country know it is settled and are satisfied. They have what you English, in your own way, call 'good horse-sense,' the people have more of that than we in the House generally attribute to the opposition. The sentiment in Quebec is all in favor of it. It was admitted a long time ago that this line was absolutely necessary, for it would be the beginning of the opening of a second Canada. It is a perfectly useless waste of time to discuss the question of expenditure and debt—these of course are important enough in their way and must be considered—but there is no use to buck against the wall, for there will be no result from it.

"You in British Columbia are interested in the question, Where shall the terminus be? Now I have much pleasure in saying that I will await the arrival here this week or the beginning of next of Mr. Hays and other officials of the Grand Trunk, and we will proceed to Port Simpson to inspect that and other ports to see which will be the most favorable for a terminus of the line. And I may say that it is the intention of the authorities of the Grand Trunk Pacific to begin work at both ends of the line, from Winnipeg to the Pacific coast at the same time as from the Pacific coast to Winnipeg. It is the intention of the government, which will have control of the eastern section, to commence from Winnipeg towards Moncton, at the same time as the start is made from Moncton towards Winnipeg. Under these circumstances, the question is finally settled now, and if the Laurier government ever disappears it will be remembered for all time as having carried out the largest and most important enterprise of the century."

Ross Bros.

Ltd.

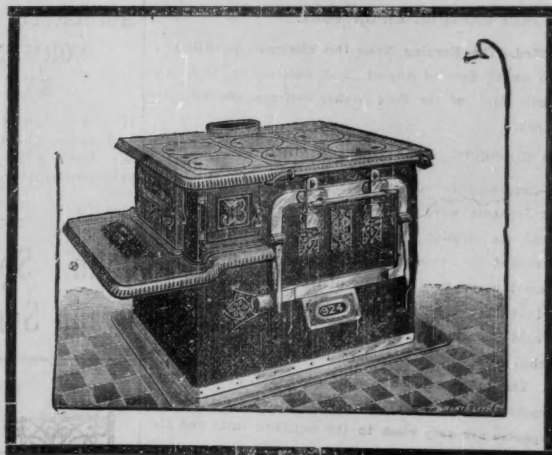

Just a Few Words About

Stoves and Ranges

ROSS BROS., Limited would like to call the attention of the public in general to their stock of Steel and Cast Ranges. These Ranges are selected from among the best Makers on the Continent and every stove they sell is fully

Guaranteed

Further than this, there is no Stove or Range made that will not in time require to have some parts renewed no matter what dealers may say to the contrary and when such parts are to be renewed you would like to get them without any unnecessary delay or trouble. If you buy from your local dealers you will have their best attention not only in respect to any guarantee they may give but also in any parts you may want in the future.

Now Ross Bros., Limited are close in touch with what is wanted in this country and their stock of stoves and ranges are not only up-to-date but are selected with a special view what is most needed here. Their prices are much below that of some prices being asked for other Steel Ranges and you will know where to find them when you want special parts when your stove has in time become an old one.

TIMBER FOR BRIDGES

AT BATTLEFORD

Being Shipped Down the River. Cana-
dian Northern Railway Construct-
ion Work

J. E. Oliver arrived from Battleford
on Sunday night, coming by way of
Lloydminster and Vegreville. He made
the trip in five days, which is probably
the record. The distance is nearly 240
miles.

He reports that the grading on the
C.N.R. is practically finished to the el-
bow of the North Saskatchewan, about
thirty-five miles northwest of Saska-
toon. Between the elbow and the sec-
ond crossing of the river about eight
miles above Battleford, the grade is
nearing completion and the graders are
beginning to pull out for contracts west
of the river between Battleford and
Edmonton. The season has been very
favorable, and the contractors have
made good money as they have been
able to push the work right along, and
the ground they are working in is good.
R. R. McDonald, of Elsterville settle-
ment did half a mile of grade in eight
days with a comparatively small gang.
M. McCrimmon who built the B.Y. &
P. is working just east of the Battle-
ford crossing, and is reported to be
doing well. He has several weeks more
work there yet. Mr. Oliver passed a
contractors' outfit of about twenty
teams about eight miles this side of
Battleford bound for Lloydminster, to
work westward from a point about
seven miles east of the village. Lloyd-
minster is roughly about one hun-
dred miles west of Battleford and about
the same distance east of Vegre-
ville.

The timber for the false work of the
bridge across the North Saskatchewan
at the elbow is being hauled by teams
from Saskatoon. It is expected that
the rails will be laid across Sas-
katchewan at the elbow crossing on
false work this fall, and the bridge com-
pleted during the winter. It is intended
that the rails shall reach the Battle-
ford crossing this fall, so that this
bridge also can be completed during
the winter, and the track pushed on to
Edmonton at the earliest possible date
next summer.

Mr. Oliver is at Edmonton for the
purpose of superintending the rafting
down of the piling and bridge timber
for the bridge at the Battleford cross-
ing. The total amount of timber will be
about 250 carloads, of which about 75
cars have already arrived and been un-
loaded. Mr. Oliver expects to start
his first raft today, and has engaged
150 men for the work.

HORSES IN PEACE RIVER

In view of the importance of the
Upper Peace River country to be
opened up by the construction of the
Grand Trunk Pacific railway, every-
thing relating to the agricultural
capabilities of the country is of inter-
est. Horse rearing is a most import-
ant branch of the farming business,
and the following information given
the Bulletin by H. B. Round, who was
a resident of the Peace river region
for thirteen years, bears directly on
the point. Mr. Round was in the em-
ploy of the Hudson's Bay company as
accountant. For three years he was
in charge of the district, and for the
whole thirteen years was in charge of
the H. B. Co.'s land transport. His
statement is as to a matter which
came under his own observation and
the main facts are on record in the
books of the H. B. Co.

In 1879 a band, comprising fifty
mares and two stallions were brought
from Kamloops, B.C., to Dunvegan by
way of the Jasper pass. Twenty-
five of the mares and one of the stall-
ions were driven to Vermilion. The
part of the band remaining at Dun-
vegan were under Mr. Round's charge
during the whole thirteen years at
his stay in the Peace River country.
During that period the band pro-
duced an average of twenty-five foals

a year. Two other stallions were
brought from Edmonton, but one died
of an accident which occurred while
on the way. The increase of the band
supplied horses for the transport on
the road from Lesser Slave Lake to
Peace river crossing. Many were
used as pack horses to the outposts.
Others were sent to outposts for local
use, and some were sold to Indians. At
the end of thirteen years, notwith-
standing the numbers which had been
sent away as above stated, the band
then numbered 100 head. The only
trouble encountered was a few cases
of hoof disease. Only one horse was
lost by sickness. The band wintered
out during every winter but one.
That winter there had been rains,
which formed crust on the snow so
that the horses could not reach the
grass. The young animals were
driven to the post and fed hay for
three weeks or a month. The older
ones were fed on the range.

In this connection Mr. Round wishes
it to be distinctly understood that
although horses winter out without
hay, cattle do not. The H. B. Co.
always put up about three tons of
hay per head of cattle. This was not
always needed, but it was always
provided. Although fed hay, the
cattle were not generally stabled.
They were merely sheltered.

Drought in Montana

Calgary, August 19.—Dr. G. A. Ings
has returned from a three weeks' fish-
ing expedition in Montana and the U-
nited States Rockies. He found the
country suffering a great deal from
drought.

In places on the east side of the
mountains the grass would blow off
the land if anything like a strong
wind got up, while if you took it up
in your hand it crumbled almost at a
touch.

The Montana cattle men are going
to find it hard to winter their cattle
on account of the lack of hay and feed
generally, and everywhere he heard
them talking Canada.

They realize he says that we have
a better country than they have, and
he is of the opinion that if they can
conveniently get out and come here
they will do so.

Ever on the west side of the Rockies
it is dry, frightful havoc having been
done in the great forests by fire. At
Spokane the heat was something al-
together unprecedented.

EDMONTON RIFLE ASSOCIATION

In spite of the threatening appear-
ance of the sky, there was a fair at-
tendance at the range on Saturday
afternoon, 20th inst.

A couple of showers fell, but were
not sufficiently heavy to interfere
with shooting.

The following were top scores—

200 500 600 Tie
H. B. Spratt 29 28 28-85
S. S. Brown 29 28 28-85
W. Pearce 30 29 21-80

It has been decided to hold the fall
matches in connection with the Strath-
cona Association, and the dates have
been fixed for the 20th to the 22nd
September, the first two days on the
Edmonton range, and the last day—
the long range matches—on the Strath-
cona range.

The prize list will be completed and
published shortly, and a cordial invi-
tation is extended to all riflemen, es-
pecially those of Northern Alberta, to
take part therein.

Wetaskwin is organizing an associa-
tion, with a promise of a membership
of sixty. The Edmonton Association ex-
tends greetings.

SPORTS

SPLENDID LACROSSE

EDMONTON WINS

After a Close Game, With an Uneven Score. Small Attendance at the Match

Edmonton lovers of Canada's national game were treated to as fine an exhibition of the game last night as has been seen here this summer. The Red Deer team are a bunch of husky players and put up a splendid article of lacrosse. The game was close and exciting from start to finish and the score of 7 to 9 in Edmonton's favor by no means represents the relative playing of the two teams.

Owing to some of the local men being slow in turning out, the game did not get started until seven o'clock. Both teams rushed the ball hard on the start with little advantage on either side. Both teams played good combination, although it was evident that the Edmonton team, as a whole, had received much more practice than their opponents. The first goal was scored after about five minutes playing.

In the second quarter the Red Deer boys played their strongest and Harper, Edmonton's expert goal keeper, was called on to stop a couple of dangerous shots. "Wattie" secured the ball on the wing and passed to Thompson in front of the goal, who added another tally for Edmonton.

Dunsford played a splendid game for the visitors and with Jackson, worked hard to keep down the score. Maloney has developed great speed this season and last evening played perhaps the strongest game of the locals. He played his position well and fed the home with ball after ball. Brandt played a strong check game and appeared to better advantage than in any previous game this season. Edmonton scored the third goal from a scrimmage a few feet in front of the goal posts.

Wild shooting on Edmonton's part was responsible for the loss of several goals, and Harper, in Edmonton's goal was called on to deal with several hot shots.

In the last quarter Edmonton quickly added three more goals, scored by Watkins, who played a pretty game throughout under the disadvantage of being nearly laid out with a sore knee. Handley was struck across the head in a close check and finished the game on the fence. Leggett was retired to even up matters. Shoemaker, the captain of the visitors team, played his position thoroughly and although he did not get very much to do, showed himself an adept at the game. The Edmonton defence played a strong game.

A few minutes before time was up Edmonton scored the seventh and last goal.

The following is the line-up:—

Edmonton Goal. Red Deer

Harper Jarvis

Pearen McDairmid

Banford Jackson

Maveety Welton

Milne Handley

Leggett Tait

Thom Beckett

Maloney Wilson

Brandt Bradford

Nott Dunsford

Thomson Shoemaker

Watkins Smith

R. Dewar gave good satisfaction as umpire. The field captains were, Edmonton, Deaton; and Red Deer, Wel-

liver.

The Red Deer lacrosse club are to be congratulated on the sportsmanship they exhibited in journeying to Edmonton for the pure love of the game. Red Deer has an aggregation that they may well be proud of. It is no easy matter for a small town to get together a lacrosse team and Red Deer's endeavor to get lacrosse on a going basis in Central Alberta should receive the hearty support of the surrounding towns. Edmonton has guaranteed the Red Deer boys a return game. No date has as yet been definitely settled, but efforts are being made to have the trip made in about a week or ten days.

An excursion will be run from Stratcona to Leduc Thursday evening to give the people of the northern towns an opportunity to see the lacrosse match between Stratcona and Leduc. The round fare is seventy-five cents.

Business Education

Excellent training in stenography, type-writing, book-keeping and kindred subjects can be obtained in Alberta college, Edmonton. The college has a full staff of certified teachers in the departments of

Art, Business, Music and Elocution and Physical Culture

The academic department is specially designed for a class of general students. Mr. Percy Hook, late of the Toronto College of Music; Miss B. Crawford, of Woodstock College, and the Misses Webster and Bellamy are the teachers in music, elocution, and physical culture. The new building is situated on First street, south of Jasper. Board and room can be obtained in the College. Business and Music departments open September 1, Arts and Academic October 1st, For fees and further particulars apply to the principal.

J. H. Riddell, B. A., B. D

Special Advisers In Canada.

We recently drew attention to and condemned a new scheme of life insurance under which a certain class of policy-holders, who are styled "Special Advisers," are given more favorable rates and privileges than other policy-holders. We are informed that the bait offered by this fallacious and illegal scheme has been swallowed by some persons in Western Ontario, who have fallen into the trap set by the company which is not licensed to transact life insurance in Canada. This is quite enough to place the "Special Advisers" scheme under the ban of the law. It is an underground enterprise which, we trust, will be quickly suppressed before more victims are deluded.

Ten Japs have captured more of the fort defending Port Arthur.

The Sevastopol struck a mine and injured.

The Militia Department has arranged for the construction of a number of rifle ranges throughout the Dominion.

It is asserted in Ottawa that the Shamrock lacrosse club will join the Capitals and repudiate the C. A. A. U.

NO TELEGRAPHIC

The Bulletin is without its regular morning's telegraphic service to-day owing to a congestion of business on the main line of the C.P.R. telegraph system.

LEGISLATIVE ASSEMBLY CALLED

The members of the Legislative Assembly have been summoned to meet at Regina on September 22nd. This is somewhat earlier than last years date. The session will probably be a short one as there is no very important business likely to come up.

DIED FROM HIS INJURIES

Walter Douglas, the farmer who was lying about nine miles east of Fort Saskatchewan, and who was severely kicked by a horse on Saturday, has since succumbed to the injuries received on that occasion. He is said to have been cutting wheat, and got down from his seat and crossed in front of the kinder behind the horses. One of them kicked him, inflicting very severe injuries. He was taken to the home of Mr. Madden, at Riverside, where he died yesterday.

The funeral takes place this afternoon.

TRANSPORTING TIES

J. G. Oliver sends a gang of thirty men to Victoria tomorrow to transport 17,000 ties to Battleford by the Saskatoon. The ties were taken out last winter by the Bati Bros. and are piled about eight miles below Victoria. They will be used by the Canadian Northern Railway on their Edmonton branch from Battleford west.

DUCK SHOOTING

Scarcely a man was to be seen on the streets of Edmonton yesterday. It was Civic Holiday and almost everybody that possessed or could borrow or rent a gun, was out after the ducks on the first day of the open season. Most of the sportsmen left town the afternoon and evening before, so as to be on hand at some favorite slough at the first peep of daylight.

A number of persons went down the line to Leduc and Wetaskiwin and went east and west from there. The early morning was ushered in by a regular bombardment of the ducks on the sloughs in the immediate vicinity of the city. This was kept up for about two hours, when it is safe to say there weren't a dozen ducks within several miles of the city.

The ducks were fairly plentiful—much more so than many of the bags secured would lead one to believe. A great deal of indiscriminate shooting was indulged in. Dozens of people shot them whenever they could get within shooting distance without any thought as to whether they could secure them when killed. On some of the lakes and larger sloughs in the vicinity it was totally impossible to get many of the ducks shot, the depth of the water prohibiting it. At these sloughs persons without dogs or boats were at a very great disadvantage.

The lakes and sloughs in both the Edmonton and Strathcona districts were alive with sportsmen from both towns. A large number of these went out alone or in couples and all succeeded in getting fair bags. It would be idle to recount the individual successes, as nearly every able-bodied man in the two towns was out and most got from two to four and six apiece.

Jack Robinson, Harry Goodridge, Alex Watson and Morris McDermott secured a boat and drove to Long lake, and succeeded in getting over thirty ducks. They report that Long lake was alive with duck shooters and that ducks were plentiful, but that only a small proportion of the ducks killed by those without boats or dogs was secured.

Lenny Goodridge and Frank Goode returned last evening with over 95 ducks.

R. Spencer and W. Nelson spent the day in the Sturgeon district and secured upwards of thirty.

Mayor Short, Del. Grierson, J. McLean and J. H. Picard, spent the day in the district about ten miles east of Clover Bar, and brought home about a dozen ducks. None of the party were particularly apt waders, and several ducks shot by them were not secured.

Dr. Hyslop and A. Archibald went north from the Fort road and met with good success, bringing home about sixty fine ducks.

A party composed of Inspector Strickland, O. Bishopric, E. Raymer, J. K. Kennedy and others, left Monday for Egg lake. O. Bishopric and E. Raymer have returned and report a very successful day's shoot.

Watson will Design Shamrock 1v

Greenock, Scotland, August 22nd.—Sir Thomas Lipton has secured Watson to design another American Cup challenger, and a challenge will immediately be issued.

SUNDAY SCHOOL PICNIC

A very successful picnic was held by the Presbyterian Sunday school yesterday on the fair grounds. The children assembled at the church at ten o'clock and were taken in buses to the fair grounds. Lunch was served in one of the exhibition buildings. After lunch an automobile ride around the race course in J. B. Lubbock's auto, made everyone happy. Children's races and baseball followed. Tea was served at five o'clock, and the children returned home about six o'clock, well pleased with the day's outing.

One of the most interesting in the program of sports was the girls' bicycle race. Six girls entered. The distance was considerably over two hundred yards, and the children evinced great interest in the event. After a very keen contest the following were the winners—1st, Irene Harbottle; 2nd, Bessie Forin; 3rd, Stella Harbottle.

DR. MCLEAN'S BODY

FOUND

A Few Yards From the Scene of the Accident. Story of the Drowning. Remains Sent to His Ontario Home

The body of Dr. McLean, who was drowned in Cooking Lake, was found Monday afternoon just at the scene of the fatality.

Immediately after the accident occurred the campers went to work to drag the lake with what means they could put together. It was dragged for about two hours. This was found to be unavailing and a stop had to be made to await the arrival of grapping irons from Edmonton. Drs. Strong and Wilson arrived with these about two o'clock and by four o'clock in the morning the lake was being thoroughly dragged off Grapnell's Point, where the accident occurred. This was continued until about half-past twelve at noon when the body was found. It was found within a few yards of the place where the boat went down.

The remains were brought to town Monday afternoon, embalmed and shipped to his home in Carleton Place, Ont. for interment this morning.

The party had been on the lake for some two hours enjoying a brisk sail as the wind was good. The boat was a small flat-bottomed one with a sail attached. Three persons would have been a good load for the boat, but five were in it during the first part of the sail. One of the party had been let out at the shore a short time before the accident, and the remaining four started to sail across the lake. The boat was leaning somewhat, and on gaining the opposite shore all the water was dumped out. The trip back across the lake was then started, and the boat began to take water very rapidly. When it was noticed that bailing did not lower the water rapidly enough the sail and other things were thrown overboard in an effort to lighten the boat. Good progress was being made until the waves began to wash into the boat. It filled then in a moment or two, and sank. The occupants of the boat were precipitated into the water. Three of the party came up right beside the boat, and Dr. McLean was noticed about four or five yards from the boat, and he started to swim toward it. He appeared almost exhausted, and his companions assisted him towards the boat. No sooner had he touched it than it sank again, and all were again thrown into the water. This is the last that was seen of the deceased. The survivors were picked up immediately afterwards. Whether the deceased was taken with cramp or came up under the boat will probably never be known. As two of the other three members of the party could not swim, it is a wonder that the accident did not have a worse ending. The party did not anticipate the slightest danger until a moment or two before the final swamping of the boat. The water at the scene of the accident was about fifteen feet deep and the bottom was perfectly free from weeds.

This distressing accident has cast a gloom over the whole community. The deceased was deservedly popular, being a young man of exemplary habits and well liked in his profession, and the heart-felt sympathy of the community goes out to his parents in this their sad bereavement. The choir of the Presbyterian church and the young men's rescue club, of both of which organizations he was a member, have sent handsome wreaths. Others have testified to their esteem for the deceased in the same way.

STURGEON ROAD DITCH

Splendid progress is being made on the Sturgeon road ditch. The ditcher is now working about three and a half miles from town in the vicinity of the Turnip lake school. The ditch will be continued to Turnip lake. The same necessity does not exist this

year for the ditch as did last year. Then the whole country was covered with water and the ditch was undertaken to afford drainage to that section of country. This year, however, the rainfall has been ample, but not excessive.

FALL WHEAT

Fall wheat has turned out so well in this district this season that the acreage is being largely increased. J. A. McPherson, of Stony Plain, has 35 acres sown; Mr. Wilson, of Horse Hills, has 40 acres; and Mr. Crozier, of Sturgeon, has 35 acres. All three had fall wheat this season, which did so well that they are satisfied to increase their acreage. F. S. Mitchell of the Sturgeon, has an excellent crop of ten acres, and Wm. Lange, Spruce Grove, four acres, this season. The variety generally sown is the Turkey Red. The advantage of fall wheat is that it matures earlier than spring wheat, and being sown the previous summer, reduces the amount of spring work otherwise necessary to sow a large acreage.

A Family Affair

Is our Doherty Organ. It is the one instrument that will respond satisfactorily to the strong fingers of the father, the dainty touch of the mother and will not be injured by the faltering hands of the children. Altogether it is a handsome, sweet toned, strong and durable instrument. It is unexcelled for the rendering of sacred music. We have them in variety of styles and sizes from \$60 to \$160.00.

The Edmonton Music Co.

Jasper Av. W., Edmonton

WHAT COSTS MOST

WHOLE lot of people fancy the cigar business is a snap! They figure out that all you need is some cases of tobacco, a few cigar makers, and the name of some stage favorite or prominent man.

The quality of the filler does not interest them at all--the binder is beneath their notice--but the wrapper and the name is all important.

They can sell this kind of cigar at \$55.00 a thousand, give a gold watch into the bargain, and then make a good size profit.

The principal cost of Pharoahs is in tobacco--I buy the best filler in the world--a Cuban leaf--one I select myself from the best of the Manicagua district, in the Province of Santa Clara--a Connecticut broad leaf as binder, the most expensive in the world--and I import a clear leaf Sumatra from Holland as wrapper.

I secure by this means a superb cigar, a fragrant, even smoker--very palatable--very superior to the ordinary run of cigars.

J. Bruce Payson, GRANTY, P.Q.

Two in One SHOE POLISH

First came the old fashioned liquid polish, that blacked shoes without shining them. The bottle-and-box combination was an improvement, but meant too much hard work. "2 In 1" is the perfection of shoe polishes. It's a Paste that embraces the good points of all other polishes, with none of their faults. One application--one rubbing--and the shoes are shined. It's made of pure oils, that preserve the leather. Contains no acids or turpentine.

IN 10c AND 25c BOXES, AND 15c TUBES. AT ALL DEALERS.

Biliousness

That torpid liver is bound to make trouble for you this summer, unless you cure it once for all. That's what ABBEY'S SALT is for--biliousness. It stirs up the liver--makes it work properly--cleans out the bile--strengthens the digestion--and regulates the bowels. No more bilious attacks as long as you take ABBEY'S SALT.

Being a granular, effervescent salt it can not contain alcohol.

25c. and 60c. bottles--at all druggists.

Abbey's Effervescent Salt

TYPOGRAPHICAL UNION.

604, meets in Gariepy Hall on the first Saturday in each month at 7.30 p.m. President, B. R. Davison; Secretary, J. D. Maveety.

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 16, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead, is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following upon and cultivation of the land in each year during the term of three years.

(1) At least six months' residence years.
 (2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence may be satisfied by such person residing with the father or mother.
 (3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with cultivate 30 acres of his homestead, buildings for their accommodation, and have besides 30 acres substantiated.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,

Deputy Minister of the Interior. N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

LOCAL

The Red Deer lacrosse team returned south this morning.

P. Ottewill, of Clover Bar, has 100 acres of wheat ready for cutting.

The Edmonton Brewing and Malting Company are bidding for tenders for the erection of a brick malthouse.

The regular meeting of the Edmonton city council will be held this evening.

Some damage by hail on Wednesday and Friday of last week is reported north of the Sturgeon.

John Kennedy of Poplar lake, has 100 acres of barley and wheat ready for the binder.

W. H. Stephenson, of Clover Bar, cut a small field of club wheat on Thursday, the 18th.

It has just been decided to have the Edmonton lacrosse team visit Red Deer for the return match on Monday September 5th, Labor Day.

The body of the late Dr. McLean was sent to his home in Carleton Place, Ontario, this morning. Dr. Strong went in charge of the remains. A large number of the young men of Edmonton gathered at the station. Interment will take place at Carleton Place, where Dr. McLean was brought up.

R. Logan and R. A. McKenzie, of Beaver lake, west side, were in town last week. Grain was already ripe at the lake and binders were at work. The crop was well matured, but was not as heavy as might be wished, owing to dry weather in the growing season.

Thos. Daly, of Clover Bar, was in Edmonton Monday. Crops in that vicinity are in splendid shape. Not the slightest damage has resulted from any frost this year. The barley harvest is well under way. Were it not for the wet weather of the past few days the wheat harvest would be general. Oats and other grains are ripening fast.

Okotoks Review.—About two years ago James Fluke purchased a half section of land across High River, opposite J. D. O'Neil's farm, paying therefor \$4 per acre. He made no improvements of any kind, and last week sold to Mr. Wheeler, of High River, for the sum of \$8 per acre. That's putting them over pretty well, eh!

A party of United States land seekers, including E. Lindgren of Grafton, Nebr., N. Olson, of Lincoln, Nebr., and J. A. Nelson, C. A. Hammit and C. A. Sandstrom, of Cresco, Nebr., arrived in the city Monday evening, and left yesterday for a trip of inspection throughout the Edmonton district.

Portage Liberal, August 18th.—A sample of wheat was brought into the Graphic office to-day from the farm of J. V. Sutter, on the plains. It was some three feet high and apparently a good sample, but on closer inspection was seen to be covered with black rust. Mr. Sutter says that the rust is a serious problem in spite of the statements of crop reporters.

Okotoks Times, August 18th.—Wheat and barley crops by the end of the week will be all cut, and glowing reports are heard on all sides. In some cases oats have been cut, but they are of the early variety. As a general run oats are as yet green, but in about a fortnight will be ready for the binder if favorable weather continues.

The McLeod Gazette.—Harvesting has already begun on the irrigated farms around Lethbridge. Mr. R. Tiffin has his fall wheat cut and Fairfield Bros. are cutting barley. The fall wheat is more than an average crop, particularly where water has been put on. The barley is magnificent, the straw is heavy, the heads long and filled with fine plump grains right to the top.

Herald.—Twenty-one settlers arrived in Calgary yesterday. They will go into the Wetaskwin district. C. O. Swanson, general Dominion agent, was in charge of the party. Most of the men are farmers from Minnesota and the Dakotas who have recently sold fine farms for forty dollars per acre. All of them are well fixed and able to purchase large bodies of land in Canada at prevailing prices. They left on the morning train for their future homes.

PERSONAL

The Bishop of Calgary returned to Calgary on Monday morning.

C. Gallagher returned to the city last night.

Maurice Gervreau left yesterday morning for Medicine Hat.

M. E. Broley arrived in Edmonton on Monday evening from Fernie.

Miss L. J. Fife, of Revelstoke, B.C., is visiting at the home of Mr. W. J. Carter, Edmonton.

Mr. and Mrs. S. A. Dickson, of Ponoka, arrived in the city yesterday evening.

Mrs. Cross, mother of C. W. Cross, of Short Cross, Beggar and Ewing, left for her home in Ontario yesterday morning.

R. B. Welliver, of Red Deer, accompanied the Red Deer lacrosse club to Edmonton yesterday. He returned south this morning.

A. H. Ilsey, of Stephenson & Ilsey, Red Deer, arrived in the city last night. He accompanied the lacrosse club north and remained over today.

B. S. Dobell, formerly of Portage la Prairie, is accountant in the Bank of Montreal, in place of K. Ashworth, who has been transferred to Calgary.
